

當汽車開始飛行

When Cars Learn to Fly, Will We Still Look Up?

Joo

FASTER.
SMARTER.
MORE EFFICIENT.

然後呢？

DO YOU REMEMBER YESTERDAY'S SKY?

你還記得昨天的天空嗎？

同一片天空，不同的世界。

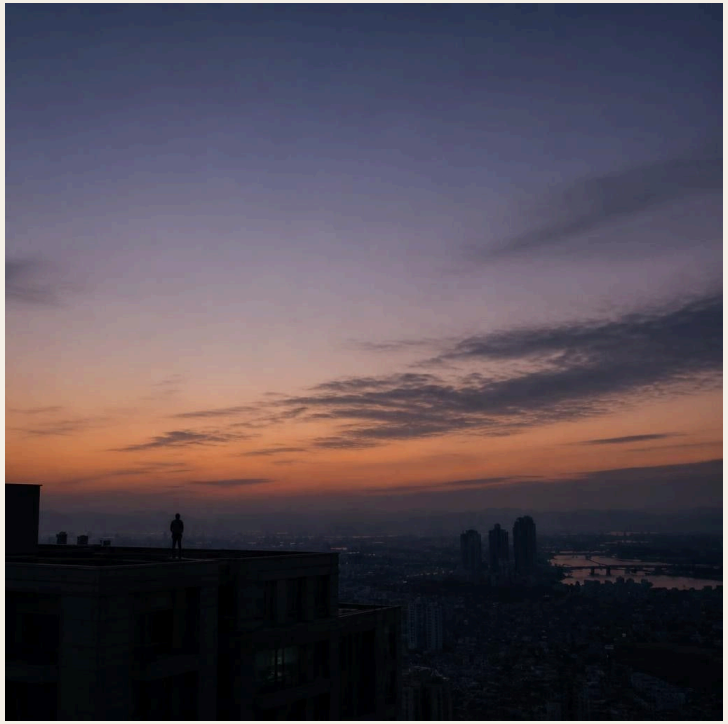

Seeing is not understanding.

辨識世界，不等於理解人如何體驗世界。

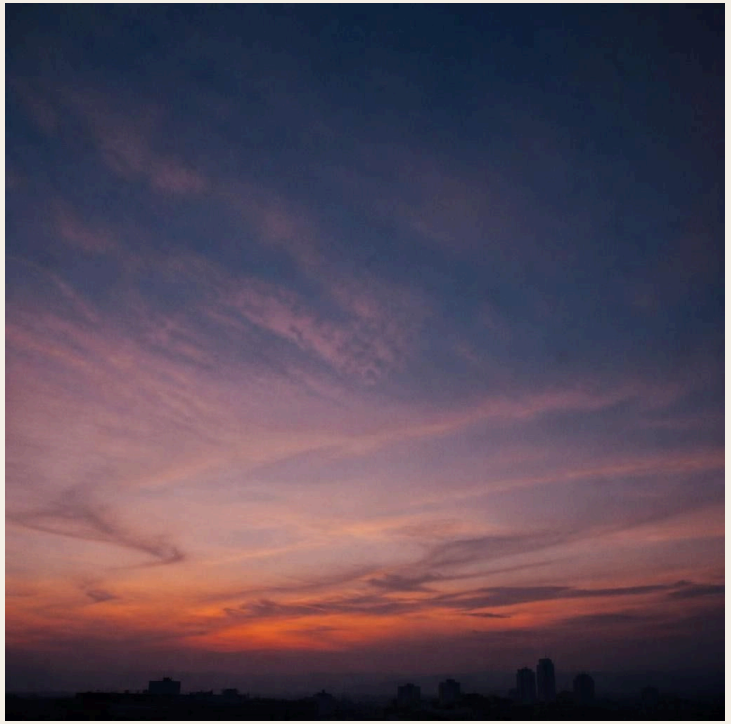

A TINY EXPERIMENT IN NOTICING LIFE.

如果科技能幫助我們，重新注意生活呢？

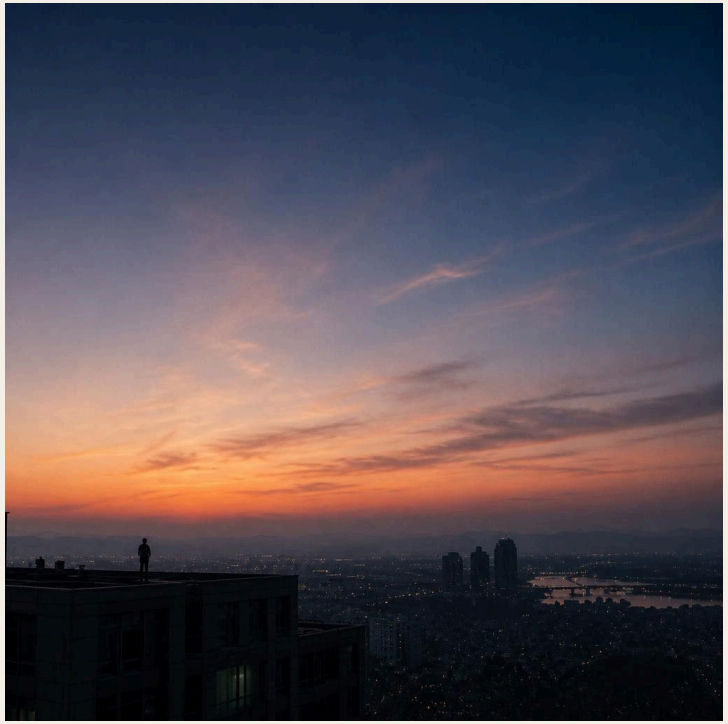

MON

A quiet beginning.

WED

Thinking of someone.

SUN

I felt free.

WHAT WE CAN DO

What should technology optimize?

Speed

Efficiency

Performance

Technology should not only expand what humans can do,

WHAT WE CAN EXPERIENCE

Awareness

Connection

Meaning

but also enrich what humans can experience.

在汽車學會飛行之前，
先讓我們重新學會抬頭。
BEFORE WE LEARN TO FLY, LET'S REMEMBER TO LOOK UP.
